

Dear Parent/ Guardian:

All students entering 6th grade are required by the State of Illinois to have a current physical examination and dental examination on file with the school that they attend. Please note that physical examinations and immunization updates are mandatory by state law. It is required that students not in compliance with the law be excluded from school.

In addition, starting with school year 2015-2016, **any child entering sixth grade shall show proof of receiving one dose of meningococcal conjugate vaccination (MCV)**. Two doses of Varicella and a dose of Tdap are also required.

A yearly sports physical is also required for all students planning to participate in sports in 6th, 7th, and 8th grades.

Do not hesitate to contact me with any questions you may have. I can be reached at 385-3269 ext. 203 or mbeierle@palos128.org.

Sincerely,

Mary Beierle RN
